PROFESSIONAL SUMMARY

MCA student and Full Stack Developer with hands-on experience in building web applications using React, JavaScript, PHP, MySQL, HTML, CSS, and Tailwind CSS. Strong foundation in Java, C++, C#, SQL, and database concepts. Experienced in developing responsive web applications and working with Git and GitHub. Continuously expanding skills in modern full-stack development and seeking opportunities to contribute to real-world software projects.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS

Backend: PHP

Database: MySQL, SQL

Programming Languages: Java, C++, C#, C

Tools & Technologies: Git, GitHub, VS Code, Postman

Operating Systems: Windows, Linux

Currently Learning: Node.js, Express.js, MongoDB

PROJECTS

InsightAI – AI-Powered Business Intelligence Dashboard

React | Node.js | Express.js | MongoDB | Tailwind CSS | OpenRouter API

- Developed a full-stack MERN Business Intelligence Dashboard for managing and analyzing sales, revenue, customers, products, inventory, and expenses.
- Built JWT authentication, protected routes, REST APIs, CRUD operations, and interactive business analytics.
- Integrated an AI Business Assistant using OpenRouter API to generate business insights and recommendations.

[Live Demo](#) | [GitHub](#)

Plantastic Events – Web-Based Event Management System

HTML | CSS | JavaScript | Bootstrap | PHP | MySQL

- Developed a full-stack event management platform with **Admin, Organizer, and Customer** modules.
- Implemented user registration, event management, booking, feedback, and administrative functionalities.
- Integrated **PHPMailer** for email communication and MySQL for application data management.
